This was the best price anywhere for the same burner. BBQ is just like new with this burner installed. It came very fast, and it looks and fits perfectly! Delivered within days. They are placed a little wider apart than I would like as this reduces the amount of sear heat held at food level but these are the only ones I could find available so am thankful for that. A standard 12-pack hotdog won't go through but this will be quite interesting when I do asparagus. Seared a steak quite well when heated well. Avocado didn't stick to it yes, you can grill it and it's fantastic. These will actually also fit a Baron 590 if you keep one of the Cast iron grates. Keep the best grate of the 5, soak in vinegar solution for 8 hours, scrub off any rust and coat in veg oil. You will need to remove one set of screws that center the removed cast irons. Seem to hold a grease coating for a no-stick experience.

Wish this was a factory option for my grill! I would never know it wasn't the one grill that came with the BBQ. The quality is very good and it arrived sooner than expected. I needed to replace all 3 shields and this 3-pack was a great price.
